

Nitron Series

Industrial Nitrogen Generator

- Safe
- Durable
- Economical
- Reliable

Cherry Precision introduces Nitron Series Nitrogen Generator

that produces on site nitrogen gas with purity upto 99.99% with proven PSA technology controlled by micro controller based control system.

Applications

- Laser & Plasma Cutting Industries
- Food Packaging Industries
- Pharmaceutical Packaging Industries
- Nitrogen Blanketing
- Aluminum de-gassing
- Analytical Laboratories

Features

- Un-interrupted onsite Nitrogen Generation
- Fully automatic operation
- Modular Construction
- Low maintenance cost
- Quick payback
- Safe & Convenient over high-pressure cylinder and liquid nitrogen

Performance Chart

Model \ Purity (%)	N2 output in LPM					
	97	98	99	99.5	99.9	99.99
Nitron F30	57	48	44	30	20	11
Nitron F50	95	80	74	50	34	19
Nitron F100	190	160	148	100	68	37
Nitron M150	285	240	222	150	102	56
Nitron M200	380	320	296	200	136	74
Nitron M250	475	400	370	250	170	93
Nitron M300	570	480	444	300	204	111
Nitron M400	760	640	592	400	272	148
Nitron M500	950	800	740	500	340	185
Nitron M600	1140	960	888	600	408	222
Nitron M800	1520	1280	1184	800	544	296
Nitron M1000	1900	1600	1480	1000	680	370
